

# REBOUND *Impact*

## The *Multi Purpose* Sports Surface

The need for a long-wearing, cushioned indoor surface lead to the development of Rebound Impact. Designed for a wide variety of indoor sports, Rebound Impact is tough and durable for multi-purpose usage like assembly halls and community centres while providing excellent playing characteristics for sports such as basketball, volleyball, netball and badminton. In fact almost any sport that is played indoor can be played on Rebound Impact.

- Multi-purpose indoor surface
- Therapeutically cushioned surface
- A range of colours is available
- Easy to clean and very low maintenance
- Consistent ball bounce
- Sound grip and sure footed comfort
- Non-abrasive cushioned system reduces injuries

# REBOUND *Impact*

The wide variety of indoor sports played these days has lead to the demand for a long-wearing, multi-use cushioned surface. Rebound Impact is the therapeutic cushioned alternative to the hard floors of the past. Flexible enough for basketball, volleyball, even rhythmic gymnastics, a Rebound Impact floor can also be used for an assembly hall or even a dance floor.

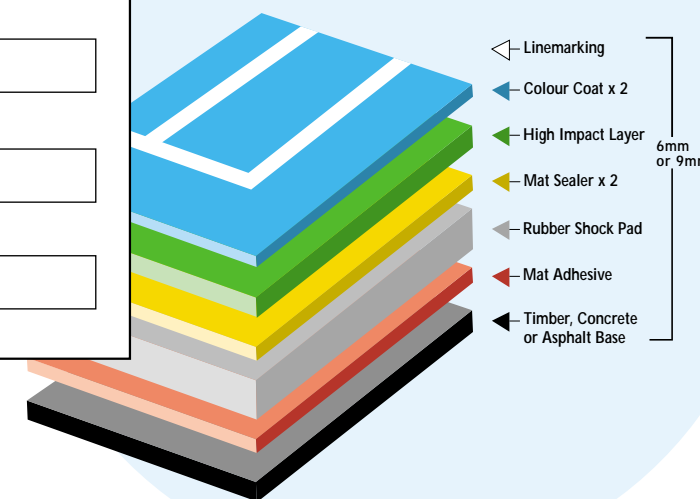

**ENHANCE PERFORMANCE.** A Rebound Impact surface will not only reduce the harshness of a hardcourt surface but it will actually enhance performance. The reduction in impact on leg muscles and joints greatly improves the comfort levels of players as well as lowering their fatigue. This in turn allows them to perform better, maximising their true potential.

**A QUALITY YOU CAN RELY ON.** Rebound Impact is a resilient, multi-layered product consisting of an elastic rubber cushioned base, self levelling polyurethane wear layer as well as a polyurethane topcoat with a non-reflective matt finish. Rebound Impact is manufactured under strict quality procedures conforming to the highest world quality assurance standard ISO 9001 rating.

### LINEMARKING\*

- 
- White
- 
- Light/Dark Blue
- 
- Red
- 
- Orange
